

Using the vim Text Editor

Andrew Mallett

LINUX AUTHOR AND TRAINER

@theurbanpenguin web.theurbanpenguin.com

Exam Objectives

Create and edit text files

Demo

Using touch

Using nano

Using vim

Demo: Time Stamps touch

Demo: Editing 101 With nano

Demo: Beginning vim with vimtutor

Demo: Control File .vimrc

Demo: Editing in vim

You Are Linux!

```
$ touch file1
```

```
$ > file1
```

```
$ touch -d '10 April 1983' file1
```

Touch Can Create New Files and Change Times

```
$ sudo yum install -y nano
```

```
$ nano file1
```

Nano is a Simple Command Line Editor

30 minutes well spent in
vimtutor

```
set showmode nohlsearch nonumber  
set ai ts=4 expandtab  
abbr _sh #!/bin/bash  
nmap <C-N> :set invnumber<CR>
```

Control Defaults with ~/.vimrc

Editing With Vim
